

A Letter to Darfur

The women of Darfur are being attacked and raped when leaving the camps to look for firewood. To try and stop this we are introducing solar cookers to the women of Darfur.

We are making special durable plastic solar cookers here in Fort Wayne, Indiana. You can come to the Love Community Center on 1331 East Berry St. and get involved. Cut out a cooker, sign your name, write a word of encouragement on the back. We have sent 600 of these special solar cookers to Sudan . We will be delivering more of these to the women of Darfur this year .

This is your chance to send A PERSONAL LETTER to a refugee family inDarfur Sudan.

Your letter will not be on a piece of paper but on the back of a solar cooker!

El Sadig writing a letter to his sister in Darfur on the back of a solar cooker

We intend to make a difference .
We intend to be personal and make sure the help gets to the right people
We can't do it all by ourselves.
We need your help Fort Wayne!!!

From the People of Fort Wayne to
The People of Darfur
"WE CARE"
